DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the curve" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "device" in line 17. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the fiber Bragg network" in lines 17-18. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: a quantic well laser, the curve and device.

Claim 1 fails to portray structural connections or relationships of the above limitations. It is not understood of claiming the limitation to "the curve".

Claim 3 recites the limitation "the network reflection coefficient" in lines 2-3. There is insufficient antecedent basis for this limitation in the claim.

Claim 4 recites the limitation "the network" in line 10. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the network" in line 16. There is insufficient antecedent basis for this limitation in the claim.

Claim 6 recites the limitation "the network" in 22. There is insufficient antecedent basis for this limitation in the claim.

Examiner Comment

Examiner is unable to conduct a proper search of the claimed invention due to the numerous 35 U.S.C. 112, second paragraph problems and in particular the limitation of the claimed curve.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Armando Rodriguez whose telephone number is (703) 308-6218. The examiner can normally be reached on 10-hour day / M-F.
